CARE n CURE
FARMACIA

For round the clock control of reflux associated with **ACIDITY**

ABID DSR

Capsules

Rabeprazole 20mg + Domperidone 30mg (SR)

... effective 24 hour control

Rabeprazole

- ☞ Show greater antibacterial activity against H. pylori eradication and Ulcer healing
- ☞ Suppresses gastric acid secretion by inhibiting the gastric H + K + ATPASE

Domperidone

- ☞ Normalizes gastric mobility and accelerates gastric emptying
- ☞ Increases lower Esophageal Sphincter pressure
- ☞ Reduces nausea and vomiting due to Anti-emetic effect

Benefits of Sustained Release

- ☞ Maintenance of therapeutic effect overnight
- ☞ Decreases incidence of undesired effects , so lesser side effects

Rabeprazole and Domperidone provides good efficacy and tolerability in the treatment of patients suffering from gastro – oesophageal reflux disease (GERD)

Also available

Tablets
ABID-D

Rabeprazole 20 mg + Domperidone 10 mg

**Dyspepsia / Gastro Esophageal Reflux Disease / Helicobacter Pylori Eradication / Peptic Ulcers
Zollinger – Ellison Syndrome / Nausea Associated with Acid Peptic Disorders / Chronic Gastritis**

MOSQUITO BITEKILL **MALARIA** with.....

Injection
BERTHER
Alpha Beta Arteether 150 mg / 2 ml

- ◆ Effective against both asexual & sexual stages of *P. falciparum*
- ◆ Second time treatment of Chloroquine resistant malaria
- ◆ Quick clinical improvement in *falciparum* malaria
- ◆ More stable and more lipophilic than other artemisinin compounds
- ◆ Ensures fast parasitic clearance rate

α - β Arteether has been proven to be 100 % effective in treating patients for acute chloroquine resistant, complicated *falciparum* malaria

.... the **Powerful & Safe anti Malarial**

CALCIUM IS STRONG SUPPORT FOR THE BONE STRUCTURE

Tablet/Syrup

Calzim

Calcium Citrate 1000 mg + Vitamin D 3 200 IU + ZINC + MAGNESIUM

CALCIUM CITRATE

- PROVIDES 22-27% MORE bio AVAILABILITY
- PREVENTS SKELETAL BONE LOSS IN EARLY POST MENOPAUSAL WOMEN

VITAMIN D3

- REGULATE CALCIUM ABSORPTION AND EXCRETION, BONE MINERALIZATION IN DEFICIENT STATE

ZINC & MAGNESIUM

- ACTS AS KEY PLAYER IN CALCIUM METABOLISM
- REGULAR CALCIUM ABSORPTION AND EXCRETION BONE MINERALIZATION IN DEFICIENT STATE

• Fracture • Hypocalcaemia • Calcium Deficiency States (Osteoporosis)

• Post Menopausal Syndromes • Hypophosphatemia

STRONG SUPPORT FOR FRAGILE BONES

Let them Enjoy Fever & Pain Free Childhood

CAREMOL

Paracetamol 250 mg

SYRUP

Paracetamol

- * Possesses effective analgesic and antipyretic properties
- * Effectively relieves fever
- * Relieves mild to moderate baby pain
- * Safe for children
- * Better tolerated drug

CAREMOL

Blesses Kids with Healthy Life

Carvit

Multivitamins ,
Multiminerals &
Antioxidants

200 ml Syrup &
30 ml Drops

Multivitamins

Promotes the functioning of body

Helps to build strong immune system

Multiminerals

Supports the overall growth of body

Supports the function and structure of the cells

Cause the activation of enzymes

Supports the immune system

Antioxidants

To fight harmful free radicals

Prevents cataract, cancer, memory loss & heart disease

TO ELIMINATE KILLER INFECTIONS

CEFTON - S 1.5 ^{injections}

Ceftriaxone 1000 mg + Sulbactam 500 mg

CEFTRIAXONE

Sterile, semisynthetic, broad spectrum cephalosporin

Attains peak plasma concentration immediately after infusion

Reduces the incidence of post operative infections in patients undergoing surgical procedures such as vaginal or abdominal hysterectomy or cholecystectomy, obstructive jaundice

SULBACTAM

Enhances the activity of Ceftriaxone in different bacterial species by inhibiting beta – lactamase

Combination of Ceftriaxone plus the Beta – lactamase inhibitor Sulbactam shows greater response in the treatment of intraperitoneal abscess due to *Bacteroides fragilis*, in comparison with Ceftriaxone alone

UNCOMPLICATED

Enjoy Eating

No Matter How Much Heavy

Syrup EPSIN

Pepsin + Diastase

Diastase

Used as effective digestive aid

Helps in digestion of starch , carbohydrates , fats & proteins

Used as digestive aid in case of loss of appetite due to chronic illness, stomach fullness and indigestion

Pepsin

Helps to relieve digestive disturbances

Exhibits excellent digestion power

Indigestion

Loss of appetite

Stomach Fullness

Anorexia Nervosa

Flatulence

Healthy Digestion for Healthy Eating

For EASY BREATHING IN SEASONAL CONGESTION & ALLERGIES

Tablet
EVOCET-M

Levocetirizine 5 mg + Montelukast 10 mg

Levocetirizine

Potent and selective antagonist of peripheral H1 – receptors

Exhibits 2 – fold higher activity than that of cetirizine

Reduces allergic vasodilation & nasal mucosal congestion

Montelukast

Reduces the bronchoconstriction caused by the leukotrine

Controls both early and late phase of allergic rhinitis

Levocetirizine showed maximum inhibition of wheal response after three and six hours as compared to fexofenadine in the treatment of seasonal and perennial allergic rhinitis and urticaria

Also available

Tablet
EVOCET
Levocetirizine 5 mg.

Tablet
EVOCET A
Levocetirizine 5 mg. + Ambroxol Hydrochloride 60mg.

SEASONAL ALLERGIC
RHINITIS
PERENNIAL ALLERGIC

Ensures faster recovery from pain & inflammation

Tablets

Fenzo-P

Aceclofenac 100 mg + Paracetamol 325 mg

Aceclofenac & Paracetamol combination is effective and well tolerated in relieving OA flare –up pain. The combination shows rapid relief compared with monotherapy which is desirable by such patients and hence the combination can play an important role in the management of acute painful OA flare – up.

Aceclofenac

An outstanding anti- inflammatory profile

- ▶ *Inhibits of cyclooxygenase (cox) activity*
- ▶ *Provides potent site – specific analgesic activity*
- ▶ *Well absorbed from gastrointestinal tract*
- ▶ *Suppresses PGE2 synthesis*
- ▶ *Increases Glycos – Amino – Glycans synthesis which repairs and regenerate articular cartilage*

Paracetamol

A clinically proven analgesic and anti – pyretic

- ▶ Potentiates the action of aceclofenac in relieving pain, fever and inflammation
- ▶ Rapidly and completely absorbed from the gastrointestinal tract

Osteoarthritis

Rheumatoid arthritis

Ankylosing spondylitis

Bachaches & Dental pain

Primary dysmenorrhoea

Fever & bodyaches

.....Makes Pain Ineffective & Drives Pain Out Of Life.....

No Worries

Tablets

Fermic-XT

Carbonyl Iron 100 mg + Folic Acid 1.5 mg + Zinc Sulphate 7.5mg

Ferrous Ascorbate

- ▶ Delivers maximum amount of ferrous iron to the duodenal brush border
- ▶ Produces minimum GI adverse effects & henceforth a significant Hb rise

Folic Acid

- ▶ Prevents NTD (Neural Tube Defect) and hyperhomocysteinemia
- ▶ Reduces the risk of premature delivery by two to three times

Zinc

- ▶ Prevents growth retardation and hypogonadism
- ▶ essential for DNA synthesis

This relative bioavailability of ferrous ascorbate is higher 56% as compared to Carbonyl Iron .

Folic Acid fortification has reduced neural tube defect prevalence by 50% to 70%

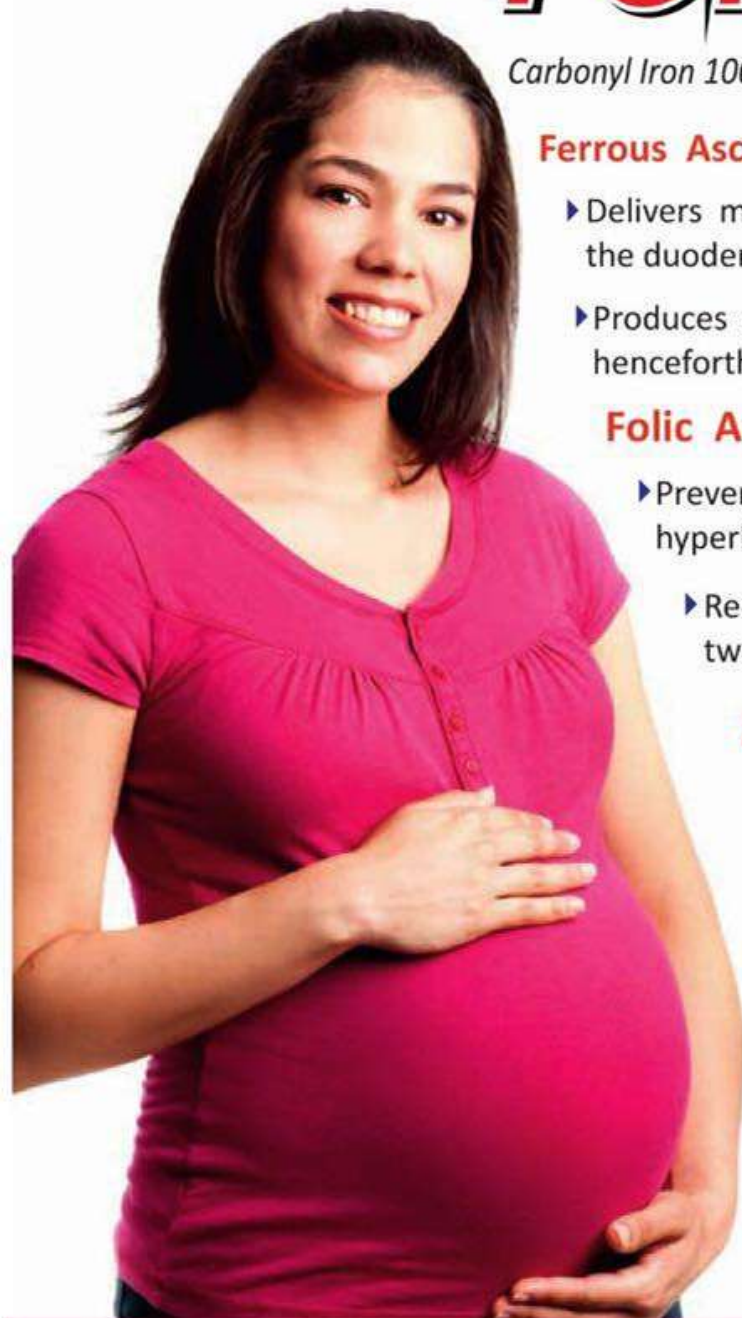

Supplementation with Folic Acid has been shown to reduce the risk of congenital heart defects, cleft palate, limb defects and urinary tract anomalies

Also available :

Syrup

Fermic-XT

Ferrous ascorbate + Folic acid + Zinc

FOR THE CONTROL OF BACTERIAL INFECTIONS

Fizi-O

Tablets

Cefixime 200 mg + Ofloxacin 200 mg

Cefixime

- Highly Efficacious against H.Influenza Strep. Pyogenes
- Broad spectrum efficacy against gram positive and gram negative bacteria
- Therapy of choice in Typhoid fever caused by multiple resistant strains

**ACUTE OTITIS MEDIA
GONOCOCCAL URETHRITIS
URINARY TRACT INFECTIONS
SKIN AND SKIN STRUCTURE INFECTIONS
UPPER AND LOWER RESPIRATORY TRACT INFECTIONS**

also available :

Fizi-100DT Tablets
Cefixime 100 mg

Fizi-200DT Tablets
Cefixime 200 mg

Fizi Dry Syrup
Cefixime 50 mg / 5 ml

.....**REALLY IMPRESSIVE BACTERICIDAL**.....

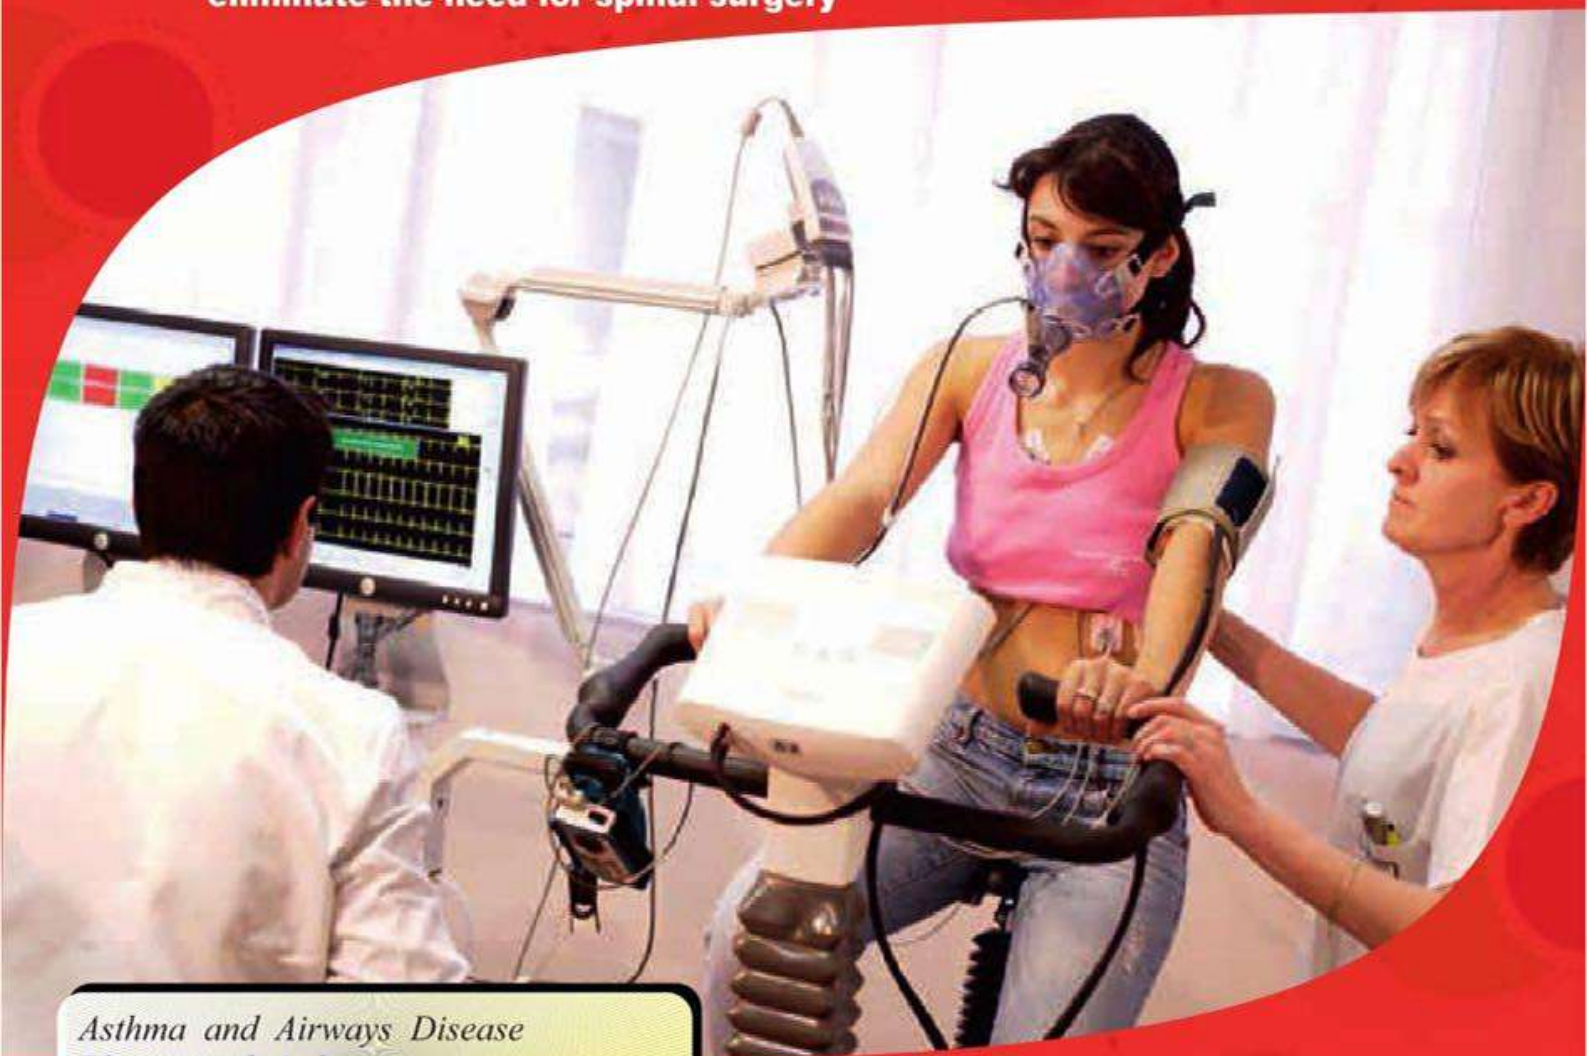

Overcomes the hurdles of Conventional steroids

Tablet

FLAZO-6

Deflazocort 6 mg

- ★ Deflazocort seems to be useful in maintaining remission of autoimmune hepatitis during a prolonged period of follow - up
- ★ Deflazocort improves cardiac function, prolongs walking and seems to eliminate the need for spinal surgery

*Asthma and Airways Disease
Rheumatoid Arthritis
Idiopathic Nephrotic Syndrome
Systemic Lupus Erythmatosus
Immune Suppression in transplantation
Juvenile Chronic Arthritis*

Deflazocort Major Benefits

*Improved upper extremity function
Improved pulmonary function
Delayed need for spinal surgery
Prolonged ambulation
Preserved cardiac function*

safe & effective

Natural Way to end and reverse Liver Damage

Syrup

Hepsil - B

Silymarin 35mg

As antioxidants, scavengers and regulators of the intracellular content of glutathione

As promotes ribosomal RNA synthesis stimulate liver regeneration

As cell membrane stabiliser and permeability regulator that prevents hepatotoxic agents from entering hepatocytes

In the management of numerous liver disorders characterised by degenerative necrosis and functional impairment like
Acute & chronic Hepatitis
Alcoholic liver disease & cirrhosis
Hypercholesterolemia

As inhibitors of the transformation of stellate hepatocytes into myofibroblasts responsible for the deposition of collagen fibres leading to Cirrhosis

Perfect solution for the lost appetite

Syrups

HEPTIN - T

Cyproheptedine + Tricholine Citrate

CYPROHEPTADINE :

Stimulates appetite
Improves increased food intake
Increases weight gain

TRICHOLINE CITRATE :

Removes fatty infiltration of liver
Reduces liver toxicity
Replenishes as a B-complex factor
Restablishes for hepatic Disorders

REPEATED ILLNESS

LOSS OF APPETITE

LESS FOOD INTAKE

MALNOURISHMENT

POOR WEIGHT GAIN

DEGROWTH

ANEROXIA NERVOSA

Regain the lost appetite

Genis-4G Softgel Capsules

Omega-3 Fatty Acid + Grape seed Extract +
Multivitamins + multiminerals + Ginkobiloba + Ginseng

- >> Helps relieve stress and occasional fatigue
- >> As an adaptogen normalizes physical functioning of the body
- >> Helps to maintain excellent body functions
- >> Shown to increase energy , stamina and help the body resist viral infections and environmental toxins
- >> Normalizes blood pressure , increases blood circulation and aids in the prevention of heart disease
- >> Improves fertility and virility as well as a general tonic for the body

**MALE & FEMALE INFERTILITY ! ADAPTOGEN ! FATIGUE ! STRESS
MEMORY LOSS ! OBESITY ! FLAGGING VITALITY ! EXHAUSTION**

Mazix Tablets
250
500
Azithromycin 250mg / 500mg

- » Highly active against certain gram-negative bacteria , Haemophilus influenzae
- » Achieves high concentration in neutrophils and macrophages
- » Active against wide variety of bacteria such as S. pneumoniae & S. aureus
- » Helps to reduce the development of drug – resistant bacteria
- » Improves patient compliance and convenience BID dosage

Azithromycin shows high acid stability, high tissue penetration, low serum levels and a very long half life

[Bryskier et al., 1993].

Azithromycin is recommended as a first-line treatment for uncomplicated urethral, cervical and rectal chlamydial infection

[CDC 1993; 1998].

Powerful prescription for General

Debilitating Conditions

NANO ²⁵/₅₀
Nandrolone Decanoate Inj.

- Improves Immune System
- Stimulates appetite
- Highly anabolic and is not androgenic
- Helps to alleviate the joint pain
- Improves collagen synthesis
- Increased red blood cell production & bone density.
- Helps in muscle gain and lean mass gains (LMG).
- Used in the treatment of osteoporosis in postmenopausal women

Nandrolone decanoate is a low cost and convenient agent to use in patients with HIV wasting and one that has no demonstrable side effects

Annu Conf Australas Soc HIV Med. 1999 Dec 9-11; 11: 153 (abstract no. P55)

APLASTIC ANAEMIA | POST MENOPAUSAL OSTEOPOROSIS | NEOPLASIA

DEBILITATING ILLNESS | INCREASE BONE DENSITY | SEVERE TRAUMA

Enhance performance and efficiency

GAIN DUAL CONTROL ON PAIN & INFLAMMATION

Tablets

NIMTEL – P

Nimesulide 100 mg + Paracetamol 325 mg

Nimesulide

- * Rapidly relieves pain
- * Selective COX – 2 inhibitor
- * Exhibits rapid onset of action
- * Possesses favourable gastric safety profile
- * Possesses analgesic , anti – inflammatory & antipyretic properties

Paracetamol

- * Does not stimulate respiration
- * Effectively relieves fever & bodyaches
- * Possesses effective analgesic & antipyretic properties

Rapidly reduced pain at rest (79 %) and tenderness (70 %) but a relatively lesser effect on pain on movement (60 %) was observed in knee OA patients.

Effective and safe therapeutic choice for the treatment of various painful inflammatory conditions with a rapid onset of analgesic activity and an overall positive benefit / risk profile & better gastrointestinal safety profile

Also available :

Tablets

NIMTEL 100MD

Nimesulide 100 mg mouth dissolving

Dysmenorrhoe

Osteoarthritis

ENT Inflammation

OFIX-OZ Tablets

Ofloxacin 200 mg + Ornidazole 500 mg

Ofloxacin

Broad spectrum antibiotic
Most potent among quinolones
Exhibits excellent penetration into bronchial secretion & sputum
Achieves superior clinical improvement rates in ocular infections

Ornidazole

Least side effects
Proven anaerobicicide
Exerts greater antimicrobial activity
Shows extraordinary power against anaerobes and protozoa

*Both drugs are pharmacokinetically compatible, are well tolerated.
Highly effective against all mixed infections, shows speedy results*

Also available:

Tablets
OFIX-200
Ofloxacin 200 mg

Syrups
OFIX-S
Ofloxacin 50 mg

OFIX-OZ
Ofloxacin + Ornidazole

Quicker relief in mixed infections

Brings smile to your patients

SYRUPS

ONSIT

Ondansetron 2 mg / 5 ml.

- Acts both centrally and peripherally
- Provides decreased stimulation of the medullary vomiting center.
- Used in severe hyperemesis gravidarum to avoid parenteral nutrition.
- Significantly decreased nausea and emesis scores over 24 h postoperatively without causing sedation
- Used intermittently in every trimester with no apparent adverse effects on mother or infant.

Ondansetron does not appear to be associated with an increased risk for major malformations above baseline during the first trimester of pregnancy

International Journal of Obstetrics & Gynaecology 2004 Volume 111 Issue 9, Pages 940 - 943

Nausea and vomiting - radiotherapy-induced (prophylaxis)
Nausea and vomiting - postoperative (prophylaxis and treatment)
Nausea and vomiting - cancer chemotherapy-induced (prophylaxis)

MOST EFFECTIVE ANTI-EMETIC THERAPY

when acidity & Reflux bothers your patient

Capsules

OPIZ-D

Omeprazole 20 mg. + Domperidone 10 mg.

OMEPRAZOLE

- * Fights acidity
- * Blocks proton pump
- * Prevents acid production

DOMPERIDONE

- * Corrects Motility
- * Normalizes gastric motility
- * Accelerates gastric emptying
- * Increases LES (Lower Esophageal Sphincter) pressure

Belching | Bloating | Nausea
Heartburn | Regurgitation | Dyspepsia

normalizes the ph, prevents reflux

Supports fertility fulfills dream

Oxido^{Capsules}

Lycopene 10% 2000 mcg + Selenium 35 mcg + Zinc Sulphate Monohydrate 7.5 mg

- Shields cells from damage
- Reduces oxidative stress
- Increases energy production
- Boost your Health with Lycopene
- Improves physical and mental condition
- It helps to maintain pregnancy & reduces the risk of IUGR by 50 %
- Lycopene shows increase in sperm count and motility
- Lycopene supplementation has been scientifically shown to have anti-cancer properties
- Boosts the immune system, reduces inflammation caused by Bacteria, protects against the Cardiovascular disease

- Female infertility
- Asthenozoospermia
- Impotency
- Azoospermia
- Miscarriage
- CVD
- Diabetes therapy
- Reducing LDL cholesterol
- General fatigue & weakness

...fills life with happiness

When acidity coupled with reflux ties up your stomach

Capsules

PEPTO DSR

Pantoprazole 40 mg. + Domperidone 30 mg. Sustained Release

PANTOPRAZOLE

- Potent proton pump inhibitor.
- Inhibits the H⁺/K⁺ATPase enzyme (proton pump) irreversibly & blocks the final step of acid secretion.

DOMPERIDONE

- Potent dopamine receptor (D₂) antagonist.
- Increases motility of GI tract by inhibiting the action of dopamine and fastens gastric emptying.
- Increases upper esophageal sphincter pressure

SR Benefits

- Reduction in frequency of administration of drug so better dosage compliance as has to be given once.
- Maintenance of therapeutic effect over night.
- Decreased incidence of undesired effects so lesser side effects.

Also Available:-

Tablets

PEPTO

Pantaprazole 40mg

Tablets

PEPTO-D

Pantaprazole 40mg + Domperidone 10mg

Injection

PEPTO

Pantaprazole 40mg

Dyspepsia | Reflux Esophagitis | Nausea and Vomiting | GERD
Chronic gastritis | Peptic ulcer | Gastric ulcer | Acid regurgitation

Single shot therapy for total relief

Antibiotic that restricts lethal pathogens

Tablets

PIKCEf 100DT
200DT

Cefpodoxime proxetil 100mg/200mg

A 5-day course of cefpodoxime proxetil is likely to be less costly for treatment of pharyngotonsillitis in the general practice setting than standard 10-day courses of phenoxymethylpenicillin and amoxicillin-clavulanic acid.

1996-09, Pharmacoeconomics., 10(3):239-50

Cefpodoximeproxetiliseffectiveinreducingsymptomsofrecurrentpharyngotonsillitisandpreventing

- Active against most Gram positive and Gram negative bacteria
- Exhibits minimal immunosuppressant activity

Also available

Dry Syrups

Sarloc - D

Diclofenac Potassium 50 mg + Serratiopeptidase 10 mg

DICLOFENAC POTASSIUM

- * Safe and potent NSAID for pain relief in cardiac and diabetic patients
- * Provides faster resolution of pain , inflammation and tenderness

SERRATIOPEPTIDASE

- * High efficacy acts as biological catalyst helping in chemical reaction without itself undergoing any change
- * Reduces secretion from mucus glands and its viscosity and absorbs necrotic tissue

- High enzymatic activity & potent anti-inflammatory effect with inhibition of Cox-2
- Suppressing prostaglandin and bradykinin hydrolysis
- Helps in faster healing of trauma

- ~ Surgery and Gynaecological indications like trauma,PID,Breast Enlargement,Post Hysterectomy ~
- ~ Orthopaedics - sprains, strains, sport injury, fracture ~
- ~ Tooth extraction, Dental surgery and infections ~
- ~ Otitis media, Tonsillitis, Pharyngitis, Rhinitis ~

Relaxes muscles , Relieves pain , Restores Mobility

infection

Skin Infection

Cefuroxime represents an excellent alternative to the presently used cefazolin as prophylaxis against postoperative wound infections in arterial reconstructive surgery

Vascular and Endovascular Surgery, Vol. 25, No. 1, 54-59 (1998)

Cefuroxime (twice daily) is more effective than amoxicillin/clavulanate (three times a day) in the treatment of patients with acute sinusitis. European Society of Clinical Microbiology and Infectious Diseases 31/03/2007

- Exerts good bactericidal activity against a wide range of common pathogens, including many beta-lactamase-producing strains
- Consequently active against many ampicillin-resistant or amoxicillin-resistant strains

For comprehensive infection management
